Robotic Process Automation

Robotic process automation (RPA) solutions mimic human activities in completing rule based processes. An existing process is assessed for the automation potential , re-engineered and automated using RPA to maximize efficiencies and reduce costs.

Areas of application

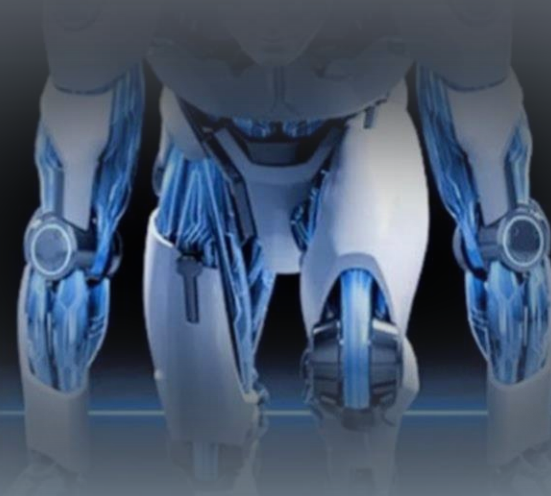

Sourcing and Procurement

Finance and Accounting

Knowledge Services

Human Resources

Customer Management

We use a quick turnaround transformation methodology to assess your existing processes, identify automation opportunities, automate the process with the necessary controls in place and continuously support/monitor the automation to ensure smooth operation

We have multiple service offerings in RPA

- **Contract hiring services for RPA professionals**
- **Corporate Training and Development Services**
- **Project Consulting Services**
- **RPA Tools Implementation Services**
- **Onshore / Offshore consulting**
- **Proposals/RFP Preparation Services**
